Education

● Bachelor Degree +3 years - Web & Mobile Developer

From 2018 to 2019 [Access Code School](#) Besançon, France

A among to certify and improve my already acquired skills as a passionate self-taught.

Skills

Expert Vue.js

After having realized several projects of different scale and exploiting the maximum potential of this framework, I can now bring you my expertise on the Javascript framework : Vue.js in its version 2 and 3.

REST Architect

I have developed several robust REST APIs making available, publicly or not, CRUD web services secured with different token authentication methods.

Craftsmans

I apply a strict self-discipline when I participate in the development of a program by respecting the S.O.L.I.D. principle. I master the most recurrent designs patterns.

System Administrator

I specialized on Docker for the configuration of several production infrastructures for my clients.
